MONDAY : : : JUNE 7.

MUST PLAN FOR THE FUTURE.

Some of the Eastern papers have given publicity to a story that Minister Damon's real object in visiting England is to prepare the way for British annexation of Hawaii in event of the failure of the American scheme. The correspondents of course, have a right to say what they please of the thoughts that engage the innermost and secret pigeonholes of Minister Damon's mind, but we have yet to hear from a reliable source that he has given any verbal demonstration of the opinions with which he is credited.

But suppose Minister Damon had expressed himself in pro-British terms what then? It is a rule among officers of the army and navy, that while they are on duty, in the garrison or pacing the quarter-deck, they shall turn over in their minds their course of action in event of a hostile attack. Why then should an observing public consider it a strange proceeding for the people of Hawaii and their public servants to ponder over their course of action in event of unexpected possibilities? View the conditions from any vantage point desired the student of the situation cannot get away from the fact that Hawaii today is "in the air." Just where it will drop an all-powerful Providence alone can say. The political and commercial stability of this country can be assured only by one of the great national powers reaching out a positive protecting arm.

We believe that the United States will fulfill the obligation of protection. We know that manifest destiny points in that direction, we know that the opinions of the people in this country are positively favorable to the completion of the American plan. We are also aware that assertions as to what the United States will do, when made from this end of the line are nothing more than assertions. They prove nothing. In view of the teaching that "God helps those who help themselves," why should the people of Hawaii be expected to wander about like dummies without a thought for the future of the country? Why should our friends refuse us the privilege of securing protection from other hands provided our enemies in the United States accomplish their desire of having the United States throw Hawaii overboard?

Minister Damon well knows, as does every individual of average common sense, that if he were to offer Lord Salisbury the Hawaiian Islands as a gift that representative of Great Britain would make no move without first consulting the United States. Minister Damon is a man who is true to his principles. He is an annexationist and all the yarns the American papers may see fit to circulate won't change his opinions. At the same time he is one of the men selected to watch over Hawaii's interests at home and, for the time being, abroad, and he will not keep his eyes shut while in England. If he sees an opportunity to advance Hawaii's commercial, financial or political interests he will be depended upon to improve it.

It is unfortunate indeed that any theatrical managers hoping to obtain the patronage of the people Honolulu should indulge in any statements regarding harsh treatment. This can do nothing but stir up bad feeling and injure the prospect of obtaining first class theatrical attractions. Of one thing we are sure: No theatrical organization should get the idea that any one company has

a mortgage on Honolulu. Such has never been the case in the past. Why should it be in the future? If one company cannot come, get another that can. It is purely a business proposition and we see no occasion for calling each other bad names. After all is said and done the public care little whether an actor's name is Tom, Dick or Harry. The public pays its money to be amused and the organization that furnishes the material will get the coin. The Frawley's did the work well last year and got the money. We have no doubt they can do it again, but a petty wrangle will not help the matter along.

The Boston Herald quotes "a manufacturer of advanced age and long experience" as predicting that the tariff bill will not be passed before the first day of October. This is not a happy outlook for Hawaii or the United States for that matter. On the other hand, at the end of the third day's tariff discussion in the Senate, Senator Vest called attention to the fact that more work had been done in three days than had been accomplished in any previous tariff debate in three weeks. The predictions on the tariff seem to be regulated largely by the personal hopes of the prophet or the condition of his digestive apparatus. After all it is a good deal like a horse race. You put up your money and await results.

The questions put to Commissioner Fitzgerald regarding Hawaii's contract labor law suggest the advisability of putting an end to further discussion, by wiping the law from the statute books. The day has passed when any reasonable excuse for its existence can be given. The law is practically a dead letter and the opinion is universal that this country has no more use for this vestige of civilized barbarity.

It is said that Senator Tillman sends cold chills down the backs of his brother legislators when he

WHEN

The water is low in the reservoir the chances are that it is very impure

launches out on one of his critical speeches. This is due not so much to the fear of Senator Tillman as to the fact that he dares to ride roughshod over the time honored manners of speech of the United States Senate. Tillman's influence can hardly be put down as so thoroughly bad as the majority of his critics make out. He at least brings his fellow members in close touch with a line of thought that is uppermost in the minds of a good sized number of American citizens. It is by no means a bad plan for the class of people he represents to have an outlet for their pent-up feelings. The conservative element cannot expect, nor is it always best for them, to always have their own way in a country governed by and for the people.

By chemical analysis of Prof. R. Ogden Doremus it contains the least amount of alcohol, therefore the purest and most wholesome Champagne.

Everyone who has been wise enough to take MALT NUTRINE has found that what we have claimed regarding its virtues as a builder and tonic to be true in every particular. The demand for MALT NUTRINE convinces us that the good results obtained by its use are so marked that there is no room to doubt its curative properties.

Everyone

Its range of effectual power is not confined to the sick.

It will be found beneficial if taken instead of Wine, Ale or Beer with your meals. There is nothing finer or better to take along on a journey or picnic as a refreshing drink than MALT NUTRINE.

Benefitted

You must not expect to find a spirituous beverage in MALT NUTRINE. It will not intoxicate you, owing to its low percentage of alcohol, which is less than 2 per cent.

All other preparations of malt have much larger percentages, which render them objectionable.

Readily

If you feel tired and worn out, cannot sleep, have lost your appetite, find it a task to do your daily labor, just try a few bottles of MALT NUTRINE and you will at once agree with the many others who have been benefited by its use, that it has no equal.

TAKE MALT NUTRINE AND NO OTHER.

Sales
Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than any other proprietary medicine. This is because it possesses greater medicinal merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that

Tells the Story.

All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy Hood's Sarsaparilla almost to the exclusion of all others.

Customers Want Hood's.

"We order Hood's Sarsaparilla in large quantities and it is the only blood purifier which a druggist can buy in large quantities without risk. It is selling very rapidly and customers who buy it once are sure to call for Hood's the next time. We believe Hood's Sarsaparilla must possess true merit in order to retain its popularity. Its sales exceed all similar preparations and its praises are often heard." L. SOMMER & SON, Springfield, Illinois. Thousands of druggists say the same.

Hood's
Sarsaparilla

Is the best—in fact the One True Blood Purifier. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

TIMELY TOPICS

JUNE 5TH, 1897.

PURE DAIRY PRODUCTS.

No subject in connection with Dairy- ing is receiving more conspicuous attention, or is apparently more needful of same, than that of the harmful bacteria and disease creating germs existing in milk or capable of development in it. This is especially true of the tuberculin or consumptive germs, the appallingly dangerous importance of which is rapidly becoming more generally apparent, and has already been made the subject of legislation in many countries.

It is found that the centrifugal separator, and particularly the "Alpha" milk-dividing disc system now used in the DE LAVAL machines, gathers and holds in the bowl of the separator practically all the filth, fibrous and feculent matters contained in the milk, including the bacteria germs, and it is now certain that this feature in the "Alpha" discs is of the most far reaching importance.

The "HUMMING BIRD" or No. 0, the smallest of the De Laval Cream Separators, possesses all the advantages of the larger styles of the "Alpha" machines, and is designed for popular household and small dairy use, from the family buying its milk and wishing to turn part of it into cream or butter as wanted, to the private dairy or farmer having less than 6 to 8 cows. It is extremely easy of operation, being easily capable of use altogether by women and children. Its capacity is 175 pounds.

A larger size is the IMPROVED "BABY" No. 2, intended for dairies of from 5 to 10 or 20 cows; and often used in larger ones. Its capacity is 350 pounds.

Amongst the many advantages to be derived from the use of the De Laval Separator are: Betterment of quality, saving of from 20 to 50 per cent. of cream, saving of skim milk and saving of time, labor and plant.

We are disposing of these at a considerable reduction on former prices, so as to place every dairy farmer in a position to possess one.

We have also CYLINDER CHURNS in four sizes, from \$2.50 upwards.
